"Master hacking, topless snorkeling, wine, war, and corporate intrigue spin smoothly in Larry Ketchersid's fast moving, high octane second novel, spanning two continents, two time periods, and all kinds of friendship, business, and love. If you like high-tech action served with cultural savvy and keen human insight, you'll snap up **Software by the Kilo**."

- Paul Levinson, author of *The Plot to Save Socrates* and *New New Media*

"In **Software by the Kilo**, Larry Ketchersid writes about romance like a romantic, about computers like a geek, about the Mafia like a Don, about war like he's been there. Perhaps, best of all, he writes about ordinary people as though he were one."

- Robert Flynn, author of *Echoes of Glory* and *Wanderer Springs*
